

Shore Power Connection

2017-10-17

We expand the port capacity and will create the cleanest port in the Baltic Sea

Photo: Carsten Watsack

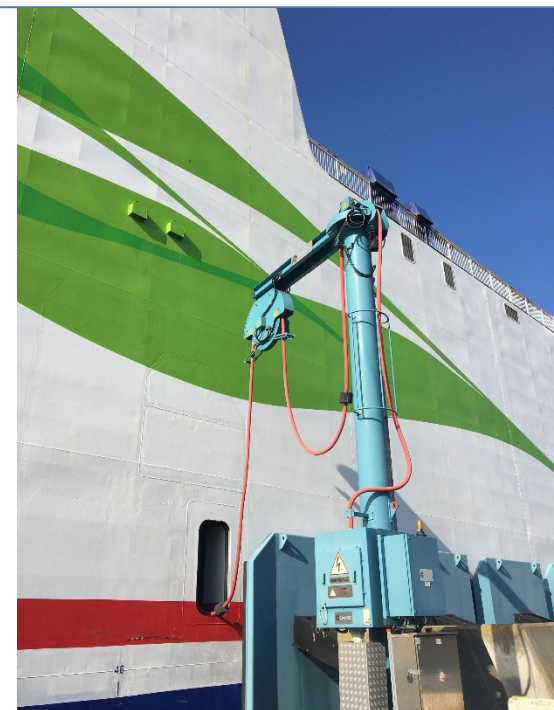

You are kindly invited to the

Inauguration of the Shore Power Connection 23rd October in Trelleborg

The Port of Trelleborg and Stena Line will open the shore power connection on Stena Line's ships M/S Skåne and M/S Mecklenburg Vorpommern in formal forms and we hope you have the opportunity to attend.

Environmental measures - OPS

- Significant environmental improvement regarding air emissions and noise
- OPS is today offered in all berths for regular operations
- Investment
- The OPS facility is customized for 2.2 MW in ferry berth 9
- At full operation, the port will use approx. 7-10 MW daily

Co-financed by the European Union

Trans-European Transport Network (TEN-T)
